

SAVE TIME AND MAINTAIN ACCURACY WITH PATHOLOGY SPECIMEN LABELING

HISTOLOGY CASSETTE LABELS & PATHOLOGY SLIDE LABELS

HISTOLOGY CASSETTE LABELS

We've engineered a new line of easy-to-use histology cassette labels. Designed for application on cassettes prior to the tissue fixing process, this new label provides adhesion and image stability without necessitating the purchase and maintenance of any additional labeling equipment. These labels are exactly what you would expect from Computype:

- › Easy to use — just print-and-apply
- › Permanently adhered to cassettes with no additional equipment required
- › Engineered and tested to withstand tissue fixing process

PATHOLOGY SLIDE LABELS

Every year, tens of millions of Computype labels get used in pathology labs around the world. Is your lab using them? If not, you're missing out on two decades of experience in creating, providing and improving labeling solutions for pathology labs like yours. It's this understanding that leads to great innovations like our Flexible Lamination After Printing (FLAP) slide label. Uniquely constructed, our pathology FLAP labels are:

- › Manufactured to withstand the chemical environments and processes of pathology staining
- › Designed specifically for use on microscopic slides and/or samples
- › Over-laminated for extra protection, ensuring 100% accuracy and scannability

TODAY'S LABORATORY ENVIRONMENT CAN BE DEMANDING.

But that's no reason any label product you're using should fail. Over the past twenty years, we've put our labels and adhesives through endless tests to prove they'll remain reliable, even in the most severe conditions. Are your current labels able to keep up with the demands of your laboratory?

LOOK TO US FOR ALL YOUR CRITICAL LABELING SOLUTIONS.

We work closely with our customers to provide the right labels for all your critical labeling needs. But we do more than just labels. From printers to scanners to label replication systems, Computype can equip and provide solutions for you no matter the challenges of your lab environment.

WE'D LOVE TO HEAR FROM YOU.
